

City of Sunnyvale

Program Performance Budget

Program 773 - Central Information Technology Systems and Networks

Program Performance Statement

Provide central information technology systems and networks, together with related services and products, to City departments so they can use technology and share information to perform their daily business operations, by:

- Maintaining and operating the central computer systems used to run major applications such as Public Safety Computer-Aided Dispatch and records management systems, utility billing and library to ensure maximum number of uptime hours,
- Maintaining, operating and monitoring the hardware infrastructure (switches, routers, firewalls, servers) to provide the Wide Area Network (WAN), Local Area Networks (LANs), electronic mail, Internet and Intranet, and World Wide Web as securely as possible to mitigate risk of loss to the City's computer resources through information security audits, investigations, education and developing security guidelines for City departments,
- Providing and maintaining the voice systems and networks, including planning and installation, working with an outside vendor for radio, voice and data circuits and payphones, and monitoring telephone usage to ensure compliance with City policies,
- Providing technical support for desktop computing hardware and software through a help desk, on-site technician, group and individualized training on IT-supported enterprise desktop software as well as usage policies, and negotiating support agreements and contracts,
- Acquiring and replacing computing hardware and software, including maintaining updated equipment inventories; performing needs assessments and cost-benefit analyses; designing new systems with specifications based on customer needs and cost effectiveness; developing equipment standards; installing or coordinating the installation of new systems; and surplus equipment that is no longer useful, and
- Preparing for the long-term needs of the City by developing and maintaining the 20-year capital equipment replacement schedules to ensure necessary funding is available through rentals charged to departments to replace equipment and recover operating costs, as well as monitoring and evaluating emerging technologies (such as Voice Over Internet Protocol) to ensure the City is well-positioned to take advantage of opportunities in the future.

Program Measures

Quality

	Priority	2006/2007 Adopted	2007/2008 Adopted
* Percentage of network log-in scripts that take 90 seconds or less.	C		
- Percent of Log-In Scripts		95.00%	95.00%
- Total Number of Log-In Scripts		1,300.00	1,300.00
* Percentage of Internet e-mail messages (outbound only) smaller than 2MB leave the City's system within 5 minutes after the message is sent.	C		
- Percent of E-Mail Messages		95.00%	95.00%
- Total Number of E-Mail Messages		730,000.00	730,000.00
* Critical information systems (Computer-Aided Dispatch, Library, Utility Billing, HR/Payroll) are restored and turned over to the applications staff within 24 hours of a hardware or operating system failure.	C		
- Percent of Restored Systems		80.00%	80.00%
- Total Number of Restored Systems		5.00	5.00
* Internal customers are satisfied with the overall services provided by the Central Information Technology Systems and Networks Program.	I		
- Percent of Satisfied Customers		85.00%	85.00%
* IT Systems and Networking staff will complete service requests within the established service levels or mutually agreed upon completion dates to enable users to be as productive and efficient as possible.	I		
- Percent of Service Requests Completed		85.00%	85.00%
- Total Number of Service Requests		8,705.00	8,705.00

Productivity

* Percentage of hours that the mission critical central computer systems (Public Safety Computer Aided Dispatch, Utility Billing and Library) are operational and available to users (also known as "uptime").	C		
- Percent of Uptime Hours		98.00%	98.00%
- Total Uptime Hours		19,978.00	19,978.00
* The City's network is operational and available to users (also known as "uptime") 24 hours per day, 365 calendar days per year.	C		
- Percent of Uptime Hours		98.00%	98.00%
- Total Uptime Hours		8,760.00	8,760.00

Program Performance Budget

Program 773 - Central Information Technology Systems and Networks

Program Measures

Productivity

	Priority	2006/2007 Adopted	2007/2008 Adopted
* The City's telephone and voicemail systems are operational and available to users (also known as "uptime") 24 hours per day, 365 calendar days per year.	C		
- Percent of Uptime Hours		98.00%	98.00%
- Total Uptime Hours		17,520.00	17,520.00
* Percentage of junk e-mail messages that are classified as spam are blocked saving employees the time they would have spent reviewing and processing "spam" and protecting them from offensive e-mail and the productivity loss associated with inappropriate materials in the work place.	C		
- Percent of Spam E-Mails Blocked		80.00%	80.00%
- Total Number of E-Mails Classified as Spam		1,200,000.00	1,200,000.00
* In emergency situations where IT is informed by a reliable source that a computer virus or worm is imminent, IT will begin the process of remedying the situation within 24 hours of notification (or before the day and time that the computer virus or worm attack is expected) to ensure that the City's network infrastructure and client workstations are secured.	C		
- Percent of Remedies Implemented		83.00%	83.00%
- Total Number of Computer Virus or Worm Notifications		12.00	12.00
* Percentage of employees who received training report improvements in their ability to use IT-supported desktop applications as measured by the training survey.	I		
- Percent of Employees		80.00%	80.00%
- Total Number of Employees		200.00	200.00
* New or replacement equipment is purchased and installed within 45 working days after the request is approved.	I		
- Percent of Equipment Requests		85.00%	85.00%
- Total Number of Equipment Requests		140.00	140.00

Cost Effectiveness

* The actual cost for completing a service request for on-site technical computing support provided by IT staff and vendors is at or below the budgeted cost.	I		
- Budgeted Cost		\$78	\$80
- Total Number of Requests Per Year		1,190.00	1,190.00

City of Sunnyvale

Program Performance Budget

Program 773 - Central Information Technology Systems and Networks

Service Delivery Plan 77301 - Maintain and Operate Central Computer Systems

Maintain and operate the City's central computer systems such as HR/Payroll, utility billing, library, financial performance, computer-aided dispatch, and records management system for Public Safety to provide secure and reliable resources to City departments, businesses, citizens, outside agencies and interested individuals to ensure that the systems are available for the maximum amount of uptime hours to conduct business processes in an efficient and cost-effective manner, by:

- Monitoring system performance and capacity planning,
- Scheduling jobs including tape management and backups,
- Creating user profiles and system security based on access rights needed for the applications,
- Printing and distributing reports,
- Properly backing up the systems for speedy recovery in the event of a system failure,
- Updating system utilities (tape management, job rescue, etc.),
- Installing new system equipment, and
- Actively evaluating and monitoring vendor support agreements and contracts on an annual basis and negotiating financial and business terms that are beneficial to the City.

City of Sunnyvale

Program Performance Budget

Program 773 - Central Information Technology Systems and Networks

Service Delivery Plan 77302 - Maintain and Operate the Wide Area Network and Local Area Networks

Maintain and operate the City's wide area network and local area network systems, including e-mail and the Internet/Intranet to provide secure and reliable resources to City departments so that they can deliver their business services and share accurate and timely information with businesses, citizens, outside agencies and interested individuals, by:

- Maintaining, operating and monitoring the hardware infrastructures (switches, routers, firewalls, servers) for the Wide Area Network (WAN) and Local Area Networks (LANs), voice, electronic mail, Internet and Intranet, and World Wide Web. Maintaining includes updates to the operating systems on the hardware and performing routine assessments to ensure that the latest updates are applied to reduce security risks. Proactively monitoring the hardware systems to detect troubles and resolve them before they affect users. Tracking Internet and other systems usage and providing appropriate reports to departments. Installing new equipment including cabling,
- Securing access to the network and computing systems. Conducting security audits, investigations and developing security guidelines for the City. Monitoring the networks for attempts to breach security and for network throughput and response times,
- Properly backing up the systems and restoring files from network user and shared folders,
- Setting up and deleting user folders and accounts. Managing user network folders and storage space as well as enterprise print services used by all departments,
- Monitoring accounts including annual audits for licensing purposes,
- Providing web-related services to post documents on the Internet and Intranet. Working with user departments on how to create and post documents,
- Monitoring the Internet traffic to ensure that the resource is used for City business purposes. Providing statistical reports on usage to departments on a regular basis, and
- Actively evaluating and monitoring vendor support agreements and contracts on an annual basis and negotiating financial and business terms that are beneficial to the City.

Service Delivery Plan 77303 - Maintain and Operate Voice Systems

Support, plan and install voice systems and networks (including services provided by an outside vendor such as for radio, voice and data circuits and payphones) for City staff so that they can communicate with each other and the citizens, by:

- Maintaining telephone services such as T1s, T3s, 1-Measured Business lines, voice and radio circuits and payphones provided by outside vendors including timely processing of invoices to ensure uninterrupted services,
- Tracking trunk/port availability,
- Setting up and deleting voicemail accounts,
- Placing repair calls to vendors for telephone equipment (including facsimile machines) and following up with customers to ensure problems are resolved,
- Physically moving, installing and removing telephone equipment and cabling,
- Updating system databases for changes to extension assignments, coverage paths and calling areas. Updating information published in telephone directories,
- Monitoring and tracking telephone usage and distributing reports to user departments on a regular basis. Following up with departments to ensure that the appropriate action is taking regarding usage, and
- Actively evaluating and monitoring vendor support agreements and contracts on an annual basis and negotiating financial and business terms that are beneficial to the City.

Service Delivery Plan 77304 - Provide Technical Support for Desktop Computing Systems

Provide and maintain desktop computing hardware and desktop software so that employees can use the technology tools in their positions as efficiently and effectively as possible and have access to accurate information to deliver City services, by:

- Providing first level technical support to resolve issues upon initial request over-the-telephone, by e-mail, or through remote access tools,
- Providing network user ID and password administration and "how to" training for customized City specific software (such as PAMS),
- Providing in-person assistance for small software development projects such as templates and databases and with documentation of processes such as the RTC and Study Issue processes,
- Providing assistance or setting up IT loaner equipment such as presentation equipment (laptop, overhead projector) and the technology systems in the Council Chambers for meetings,
- Providing on-site technical support including repairing hardware, installing or removing IT-supported desktop software and hardware, and moving computing equipment,
- Proactively tracking repairs and maintenance history. Following up with customers to ensure problem was resolved. Reviewing requests and producing reports to monitor response times,
- Educating employees on IT-supported desktop software as well as on the policies related to usage and providing training and advanced software support specifically customized for City staff such as PAMS, Budget, etc., and
- Actively evaluating and monitoring vendor support agreements and contracts on an annual basis and negotiating financial and business terms that are beneficial to the City.

Program 773 - Central Information Technology Systems and Networks

Service Delivery Plan 77306 - Acquire, Replace, Dispose Computing Systems

Support City departments with necessary and appropriate computing hardware and desktop software (Office products, e-mail, anti-virus, etc.) so that employees have access to the technology to maximize the delivery of their respective services to customers in a cost-effective and efficient manner, by:

- Consulting with customer to perform needs assessment with cost/benefit analysis, creating specifications and acquiring equipment that meets the requirements of the requesting department or program,
- Developing equipment standards,
- Declaring equipment surplus and disposing equipment according to City policies,
- Approving all non-expendable purchase requests submitted by City departments,
- Developing and maintaining the equipment replacement schedules to plan for funding to be able to replace equipment, and
- Developing annual rental rate schedules to fully recover the capital and operating costs for providing the IT equipment and services.
